

## Screen Printing Mesh for Glass

[Screen printing on glass](#) is through the screen fixed glass screen printing, the printing ink coating on the screen printing mesh, and then the ink penetrated the mesh screen on the pattern, the pattern and color adhesion to the glass, showing the need to print graphics. Printing through glass screen printing is a low cost, and can provide more durable, more colorful colors.

Shanghai SPRING print mesh factory produced the glass printing mesh quality stability, the maximum tension of 32N, long service life, can be reused, the unit area can be printed theoretical value of more than 2000 times, the largest width of 3.7 meters.

Minimum glass substrate thickness to screen print is: 0.27 mm (0.01")

Maximum glass substrate thickness to screen print is: 30.5 mm (1.2")

Minimum glass substrate dimension to screen print is: 5 x 5 mm (0.2 x 0.2")

Maximum glass substrate dimension to screen print is: 1905 x 1651 mm (75" x 65")

**SPRING Industrial Corporation**  
Screen Printing Mesh & Filter Fabric Supplier

SHANGHAI SPRING INDUSTRIAL CORPORATION

Sara : 0086-18117348869

Email: [sales02@silkscreenmesh.com](mailto:sales02@silkscreenmesh.com)

Website: [www.silk-screen-mesh.com](http://www.silk-screen-mesh.com)

## Features:

### 1. Use to ordinary glass

- Screen printing tempered glass
- Screen printing glass
- Screen Printing sandblasting Glass
- Screen printing embossing Glass
- Screen printing Rings
- Screen Printing Hollow Glass
- Screen Printing Laminated Glass
- Screen printing hot-bending glass
- Screen Printing Glass Bricks

### 2. Use to high quality print mesh for high-end glass

We provide high quality print mesh for high-end glass application industry, Can print these glass: flat panel display glass, touch and gesture recognition glass; visible to IR imaging and surveillance; entertainment, indoor and outdoor lighting glass.

- Silk-screen printed Tempered (or heat-strengthened) glass
- Silk-screen printed Tempered Cut-out glass
- Silk-screen printed Tempered Laminated glass
- Silk-screen printed Heat-strengthened Laminated glass
- Silk-screen printed Tempered Curved glass
- Silk-screen printed Heat-strengthened Curved glass
- Silk-screen printed Tempered Laminated Curved glass
- Silk-screen printed Heat-strengthened Laminated Curved glass
- Silk-screen printed Tempered (or heat-strengthened) Insulated Glass Units
- Silk-screen printed Tempered (or heat-strengthened) Laminated Insulated Glass Units

Shanghai SPRING is a recognized global supplier of high quality screen printing on glass, and screen printing solutions for a wide variety of industries.

We are industrial screen printing manufacturers and suppliers located in Shanghai China, for the glass industry, textile industry, ceramics industry, electronics industry and other industries to provide quality printing fabric.

**Shanghai SPRING** has more than 30years experiences to produce the woven mesh cloth such as polyester mesh and nylon mesh.we have strictly management of the production, with high quality material, imported Warping machine from Germany, SULZER RUTI weaving machines from Switzerland, washing and heat setting machines from Germany to make sure produce high quality mesh cloth and fabric.

We have passed the IS9000 certification and related international certification book SGS,FDA.
